Information:

The 25mm advertising panel is a single-sided aluminium structure that combines aesthetics, functionality and ease of use. Its lightweight construction makes it mobile, making it ideal for offices, shops, trade fairs and public spaces. The panel allows for easy replacement of graphics thanks to a silicone rubber band, while sublimation printing on polyester fabric ensures vivid colours and sharp details. The product is available in a variety of sizes and as a bespoke option with customisable colours (RAL). The kit includes aluminium profiles, corners, connectors and printed fabric. We also carry out the printing of the textile banner for the coffer in the sizes specified by the customer.
