Price: **€36.00** gross

Manufacturer: Klemp

Referention number: LAM\_LA-31\_P3D\_A112

### Information:

Square 3D decorative acoustic panels are a smaller variation of the standard felt lamellas. The panels are made of acoustic felt and therefore have acoustic properties. You can use them to create a wooden headboard behind the bed or a modern decorative wall behind the TV. The panels are made in a square format, measuring 60 x 60 cm. You can use them to create any geometric composition on your wall! The fluted panels can be mounted on the ceiling. The installation of the panels is extremely simple and easy. Simply apply mounting glue to the panel and stick it to the wall. The felt can be cut with a knife, e.g. a wallpaper cutter.

### The size of the discount

| Quantity | Discount | Spare         |
|----------|----------|---------------|
| 2        | 5%       | above €3.60   |
