Price: **€128.00** gross

Manufacturer: Klemp

Referention number: 10XLAM-LA700

Information:

The transom laths are available in our shop in several colour variants. The free-standing openwork slats can be purchased in sonoma oak, natural oak, wotan oak and matte black. Each lamella has a modern design and is made with great attention to detail. It is also noteworthy for its high durability, so that the laths will be able to last for many years without any damage. The openwork lamellas are laminated on all sides, so it does not matter in which order or which exact side you decide to install them.
