Referention number: MD004

Information:

The MD004 skirting board is made from durable PolyForce material featuring ScratchShield® technology, ensuring high resistance to mechanical damage, deformation, and moisture. With a minimalist design and subtly rounded edge, it effectively conceals the expansion gap and allows for cable management in a special space at the back of the board. The surface is coated with a smoothing primer, ready for painting. Water and UV resistant, this skirting board is suitable for use in high-humidity areas such as bathrooms and kitchens. Quick and easy installation allows for precise floor finishing.
