Referention number: MD236

Information:

The MD236 skirting board is designed for a stylish finish where the wall meets the floor. It features a profile with subtly rounded edges and is available in two variants: one with a primer that facilitates painting and a premium version coated with SupremeSatin lacquer for a satin finish. Made from PolyForce material, it is resistant to moisture and UV radiation, ensuring it won't yellow with sun exposure. The ScratchShield technology enhances resistance to scratches and mechanical damage. It can be installed in rooms with higher humidity levels. We recommend securing it with mounting adhesive.
