Information:

The MD8300 skirting board is designed for a stylish finish between the wall and the floor. With a profile height of 8.2 cm and a subtle groove, it effectively conceals expansion gaps and installation imperfections. Made from PolyForce material, it is resistant to moisture and UV radiation—ensuring it won't swell, warp, or yellow when exposed to light. The ScratchShield® technology enhances resistance to scratches and mechanical damage. Installation does not require specialized tools; we recommend using mounting adhesive for securing it.
