Price: **€91.00** gross

Manufacturer: Klemp

Referention number: MD008E

Information:

The MD008E door frame is made from PolyForce material, which features enhanced resistance to moisture and UV radiation, designed for a durable finish at the transitions between rooms. The ScratchShield® technology further hardens the surface of the profile, providing high resistance to scratches and impacts — even when in contact with sharp tools. Its minimalist geometry facilitates matching with modern, Scandinavian, and Art Deco interior styles. The profile includes a technical space for concealing wires, and its smoothing primer allows for quick and even application of finishing paint.

Product features

Material	Flex
