Price: **PLN189.20** gross

Manufacturer: Klemp

Referention number: MD111

Information:

The MD111 curtain rail features a curved profile designed for installation with LED lighting. Thanks to LightGuard® technology, it ensures even light distribution without the effect of harsh points from the diodes. Made from PolyForce material, it is resistant to moisture and UV radiation, allowing installation in areas with high humidity. The surface is coated with a primer that facilitates painting with water-based paints. Dimensions: 200 x 9.2 x 6.2 cm.

Product features
