Price: **€37.00** gross

Manufacturer: Klemp

Referention number: MD161

Information:

The MD161 curtain rail is designed to conceal ceiling-mounted curtain rods or poles. Made from dense PolyForce material, it is resistant to mechanical damage, moisture, and UV radiation. The LightGuard® technology prevents LED diodes from shining through, ensuring an even distribution of light. With dimensions of 200 x 9.2 x 8.3 cm, it can be adapted to various interior arrangements. Installation on the ceiling does not require any specialized tools. The surface minimizes dust accumulation and is easy to clean. It can be cut to the desired length.

Product features

Material	PolyForce
