Price: **€61.00** gross

Manufacturer: Klemp

Referention number: QL027

Information:

The QL027 curtain rail is a decorative profile designed for installation with LED lighting. The LightGuard® technology prevents point light piercing, ensuring even light distribution. Made from waterproof and UV-resistant PolyForce material, it is suitable for installation in high-humidity areas and near windows. Its universal dimensions allow for use in standard interiors without creating an optical illusion of reduced space. The surface is primed, enabling painting with water-based paints.

Product features
