Price: **€125.00** gross

Manufacturer: Klemp

Referention number: QL036

Information:

The QL036 curtain rail is designed to conceal curtain tracks and is made from PolyForce material, which offers enhanced resistance to moisture, UV radiation, scratches, and mechanical deformations. The profile features a smooth surface that mimics drywall, with a wide adhesive zone for a secure attachment to the ceiling. The integrated LightGuard® technology allows for the installation of LED strips, ensuring even light diffusion without any gaps. It can be easily cut to customize the length to fit your window recess. Maintenance is simple thanks to a protective coating that prevents dust and dirt buildup.

Product features

Material	PolyForce
