Price: **€23.00** gross

Manufacturer: Klemp

Referention number: MD070

Information:

The MD070 ceiling strip is designed for modern interior arrangements. Made from a durable PolyForce material, it is resistant to water and UV radiation, making it suitable for use in areas with high humidity. The profile allows for the installation of LED strips, and the LightGuard® technology ensures even light distribution without the spot effect of glowing diodes. The strip has been prepared for painting – a special primer enables easy and lasting paint coverage. Its optimal height makes the MD070 an excellent fit for tall spaces.

Product features
