Price: **€73.00** gross

Manufacturer: Klemp

Referention number: QL001

Information:

The QL001 ceiling strip is a profile with a symmetrical, curved shape designed for LED lighting installation. Its LightGuard® technology prevents light from penetrating the surface, ensuring a uniform lighting effect. Made from PolyForce material, it features high resistance to scratches, moisture, and UV radiation—meaning it won't yellow or deform when in contact with water. The option to use two light sources allows for simultaneous illumination of both the wall and the ceiling. The surface is covered with a priming layer, making it suitable for painting with water-based paints. Dimensions: 200 cm long, with a cross-section of 14.7 x 14.7 cm.

Product features

Material	PolyForce
Length	200 cm
Width	14,7 cm
Collection	Listwy sufitowe
Depth	14,7 cm
Colour	White
Waterproof	Tak
UV Resistance	Tak
Finish	Matowe
Leistenmuster	Gładka
Yellowing Resistant	Tak
Swelling Resistant	Tak
Easy, quick, and clean installation	Tak
Zastosowane technologie	technologia LightGuard®
Do nierówności	Nie
For painting	Tak
