Price: **€47.00** gross

Manufacturer: Klemp

Referention number: MDB118

Information:

The MDB118 ceiling strip is a decorative profile with an irregular shape and rich embellishments, designed for finishing the junction between the wall and ceiling. Made from lightweight ProFoam polyurethane, it boasts high resistance to moisture and UV radiation—repelling water and remaining free from yellowing due to sunlight. Available in a standard version with a layer to facilitate painting with water-based paints, as well as in a flexible Flex variant for mounting on curved surfaces and uneven walls. Installation is quick and hassle-free, recommended with the use of mounting adhesive.

Product features

Material	ProFoam
