Price: **€119.00** gross

Manufacturer: Klemp

Referention number: MDB131

Information:

The MDB131 ceiling strip is a finishing profile designed to cover the junction between walls and ceilings. Its triangular cross-section and larger dimensions (200 x 9 x 14 cm) make it suitable for spacious residential and commercial interiors. Made from a lightweight and durable ProFoam material, it is resistant to moisture and UV radiation – ensuring it won't yellow or warp due to humidity. This product allows for a neat concealment of installations and can correct imperfections in the walls. Installation is recommended using mounting adhesive.

Product features

Material	ProFoam
