Information:

The Flex MDB118F ceiling strip is designed for an elegant finish at the junction of walls and ceilings. This profile features a classic design with rich embossing, making it suitable for both retro and modern interiors. Made from a material that is highly resistant to moisture, UV radiation, and minor mechanical damage, it ensures durability. The FLEX technology allows for installation on curved surfaces, such as columns. It adheres with a dedicated mounting adhesive, eliminating the need for specialized tools. After installation, the strip requires painting with a solvent-free paint.
