Information:

The MD012 Wall Strip is a flat profile made from waterproof PolyForce material, ensuring high durability and resistance to mechanical damage. Thanks to the ScratchShield® hardening technology, the surface of the strip is scratch-resistant, even when in contact with sharp tools. The material does not deform or lose color under UV radiation, allowing for long-lasting use even in sunny rooms. The strip can be used as a wall element, baseboard, or to conceal gaps, including in areas exposed to steam, such as bathrooms or kitchens. It can also be painted with water-based paints, making it easy to match the color to your interior design.
