Information:

The MD346 wall strip is a three-dimensional finishing profile with a convex shape and pronounced milling on both sides, designed for installation on walls in the form of decorative frames, panels, or as part of a larger composition. Made from PolyForce material, it is resistant to moisture, UV radiation, and scratches, making it suitable for use in kitchens, bathrooms, and sunlit areas. The ScratchShield® technology enhances surface hardness, minimizing the risk of mechanical damage. The strip is coated with a smoothing primer, ensuring even paint coverage and allowing for easy painting in any color.
