Price: **€150.00** gross

Manufacturer: Klemp

Referention number: C1002-2H

Information:

The half column cap C1002-2H is made from a lightweight and durable ProFoam material, resistant to moisture, UV radiation, and mechanical damage such as scratches and impacts. It is designed for installation in commercial, public, and hotel interiors. This decorative element, measuring 37.5 x 25.7 x 18.7 cm, serves as a finishing touch for the half column and can be combined with a base for a complete arrangement. The primer coating allows for painting with water-based paints free of solvents, enabling you to customize the color to suit your interior design style. Installation with adhesive does not require specialized tools, which shortens installation time and minimizes disruption to the substrate. Adorned with numerous raised ornaments, the half column cap C1002-2H pays homage to classic architectural designs.

Product features
