Price: **€50.00** gross

Manufacturer: Klemp

Referention number: C5000-4H

Information:

The half column base C5000-4H is made from ProFoam material and is designed for installation in classic decorative systems as the lower element of the half column. This material is resistant to moisture, UV radiation, and minor mechanical damage, making it suitable for demanding environments such as residential, commercial, and public spaces. With dimensions of 24 × 13 × 12 cm, it easily fits into standard arrangement layouts. Installation can be done independently using the recommended adhesive, without the need for specialized tools. The product offers a durable, aesthetic finish and a stable connection with the half column elements and the cap.

Product features
