Price: **€54.00** gross

Manufacturer: Klemp

Referention number: C5001-4H

Information:

The C5001-4H half column base is designed for use as the lower segment of a half-column system. Made from ProFoam, a lightweight polymer that offers high resistance to moisture, UV radiation, and minor mechanical damage such as scratches or deformations. It remains stable under fluctuating thermal conditions, does not yellow, and does not deform in humid environments. Dimensions of the element are 28 × 14.5 × 14 cm. Installation is done using mounting adhesive, requiring no tools or special skills. Subtle embellishments allow for adaptation to both classic and modern interior designs.

Product features

Material	ProFoam
Length	15 cm
Width	14 cm
Collection	Półkolumny
Depth	28 cm
Colour	White
Waterproof	Tak
UV Resistance	Tak
Finish	Matowe
