Information:

Pilaster D1501 is a decorative profile designed for installation on walls, columns, or within door openings inside buildings. Moulded from a material that allows for precise reproduction of architectural details, it ensures visual consistency with decorative moldings and cornices from the same line. Intended for use in classic and eclectic arrangements, it helps organize space visually and emphasizes structural divisions. Dimensionally stable and ready for painting, it is compatible with most water-based paints, allowing for individual adaptation to interior styles. Adhesive installation is recommended on clean, dry flat surfaces.
