Information:

The wooden slanted roof patio pergola is a functional and aesthetically pleasing canopy ideal for a patio. Made from knotless pine timber with a squared cross section of 95x95 mm, it provides high durability and weather resistance. The structure is available in untreated or impregnated versions (white, black, walnut), with the possibility of customised dimensions. Easy DIY installation without the need for specialised tools. An ideal base for arrangements with curtains, lighting and plants. Structural stability is ensured by steel anti-corrosion fasteners, matched to the timber elements.
