Price: **€1,582.96** gross

Manufacturer: Kee Safety

Referention number: SGEUFH1GV

Information:

The Kee Gate® self-closing safety gate is a professional solution for protecting edges, entrances, and passages in high-risk areas. Equipped with a spring-loaded self-closing mechanism, it automatically shuts after use, eliminating the risk of leaving openings and enhancing worker safety. Its durable galvanized steel construction, also available in high-visibility yellow or RAL colors, ensures corrosion resistance and long-lasting performance even in harsh industrial environments. With adjustable width and easy installation, Kee Gate® gates are available in single, double, and full-height versions – perfectly fitting various openings. The product is CE certified and compliant with PN-EN and OSHA standards, ensuring reliability and international safety standards. It is an effective, flexible, and durable protection solution that combines top-level safety with ease of use.

Expand description

Product features

Length	110 cm
Width	100 cm
