Manufacturer: Klemm

Referention number: AT-AK352-200

Information:

A square aluminum profile 35x35x2 mm made from 6063 alloy is a solid and lightweight component for aluminum constructions. The 2 mm wall thickness guarantees stability and durability of connections. The profile is well-suited for frames, lightweight structures, and industrial cages. Its 200 cm length facilitates the creation of larger constructions. The low weight allows for convenient transport and installation. The raw surface enables quick adaptation to individual projects.
