Information:

A square aluminum profile measuring 13x13x1 mm, made from 6063 alloy, is a lightweight and durable component for small aluminum constructions. The 1 mm wall thickness ensures stability while keeping the weight low at just 0.26 kg. Ideal for frames, light structures, and small-scale industrial uses. A length of 200 cm allows for easy adaptation to various projects. The raw finish enables quick fitting and installation. This profile combines lightness with functionality in practical applications.
