Price: **€6.00** gross

Manufacturer: Klemp

Referention number: 1D2-R50-X2-CM

Information:

A straight connector/coupling with a metal core for 50x2 mm pipes is a durable component for lightweight aluminum structures. A single axis and two sockets enable quick assembly in frames, supports, and cages. Polyamide PA6 reinforced with glass fiber ensures high durability, while the black color integrates elegantly with the construction. Installation by pressing in with a rubber mallet is simple and convenient, and the metal core increases load capacity. Ideal for both industrial and hobbyist applications.
