Price: **€26.00** gross

Manufacturer: Klemp

Referention number: AT-AKZ252-200

Information:

A square aluminum profile, 25x25x2 mm and 200 cm long, is a durable and lightweight structural component made from high-quality 6063 aluminum alloy. The 2 mm wall thickness ensures stability and longevity, making it ideal for building frames, cages, and lightweight aluminum constructions. The black surface allows for easy processing and precise fitting of components. The light weight (0.95 kg) does not add unnecessary load to the structure, and the square cross-section guarantees easy and solid connections with standard plastic connectors. An excellent choice for projects requiring strength and stability. It ensures fast and trouble-free assembly.

Product features

Material	Aluminum AW-6063
Coating	Powder-coated
Length	200 cm
Colour	Black
Wall thickness	2 mm
Weight	0,38k kg/mb
Cut to size	No
Type	Tube
Diameter (mm)	25 x 25 x 2
Profile type	Square profile
