Information:

Easy Light Pop-up is a modern, double-sided LED wall that combines the striking appearance of a lightbox with full mobility. The lightweight aluminum structure allows for lightning-fast assembly without tools, and integrated modules guarantee bright, even illumination of the graphics. Thanks to innovative magnetic connectors, individual modules can be easily combined into larger, professional exhibition sets. The entire system fits into the included carrying bag, making it the perfect solution for trade fairs, events, and showrooms.
