Information:

ZEN Backlight Double Easy is an extremely lightweight and mobile 100×200 cm LED lightbox, designed for displays at trade fairs, galleries, and shops. Made of an aluminum frame and equipped with edge lighting, it allows for eye-catching illumination of graphics. The system assembly is completely tool-free, and the graphics finished with silicone tape can be replaced in moments, adapting the message to current needs. The complete set includes all necessary elements, including stabilizing feet and a power supply, making it ready for use straight out of the box. It is a functional and modern solution for anyone who values professional design combined with ease of transport.
