

KLEMP® Pipe Connection System

We are the owner of the Klemp® brand – a system of structural connectors for industry, construction, architecture, and interior design.

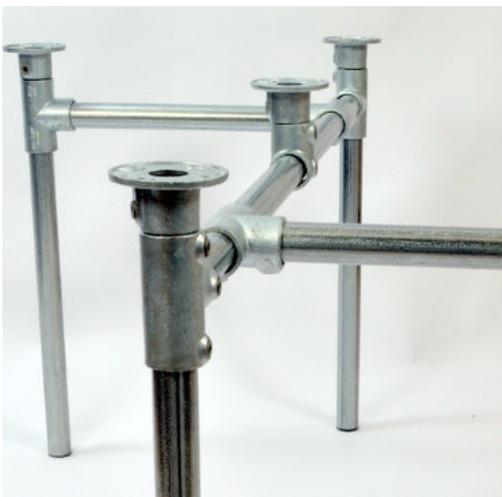

We combine functionality with design. Build faster, easier, and without welding.

Discover the most versatile range of assembly systems in Poland- from heavy industrial structures to lightweight display and furniture systems.

- ✓ Lightning-fast assembly and disassembly – no welding or threading required.
- ✓ Over 600 types of KLEMP® cast iron connectors.
- ✓ Pipes and profiles cut to size with millimetre precision.
- ✓ 4 finish variants: Galvanised, Black, Vintage-Brown, and Natural.
- ✓ Maximum durability and full corrosion resistance.
- ✓ Quality and strength confirmed by a TÜV certificate.

Scope of application for our products

Industry & Health and Safety | Retail & Shopfitting | Design | Garden & Agriculture | Advertising

Offer for businesses and public institutions

After creating a B2B account in our online shop, please send us a quick message with the email address used for registration. We will assign a **5% introductory discount** to your account, valid for all our connectors, pipes, and ready-to-use construction kits.

Cast Iron Connectors

The KLEMP® system is the foundation for projects requiring the highest stability and load resistance.

Connectors cast from iron guarantee high durability, which translates directly into safety. The high manufacturing quality is confirmed by a TÜV certificate. A zinc coating protects every element against corrosion.

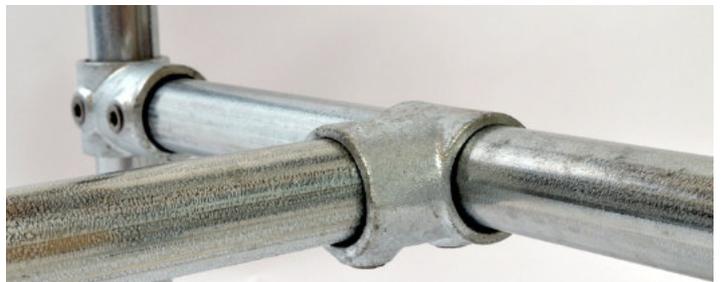

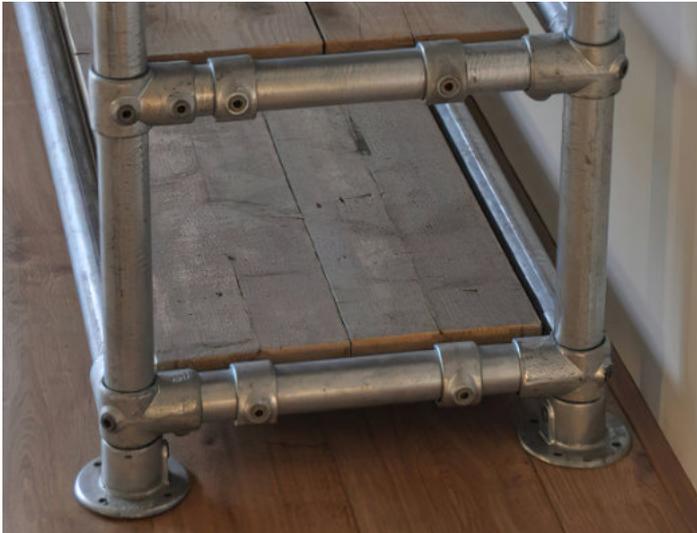

Discover modular components for the fast and secure creation of any metal structure.

- ✓ Over 600 connector variants
- ✓ Custom-made structures for your project
- ✓ Delivery throughout Europe

Our offer includes connectors with both round and square cross-sections.

Round connectors

Material	Cast iron
Certificates	TÜV certified
Available sizes	A (21,3 mm) B (26,9 mm) C (33,7 mm) D (42,4 mm) E (48,3 mm) F (60,3 mm)
Versatility	Compatible with steel and aluminium pipes
Assembly	Allen key (no welding or threading)
Set screws	ML08AL carbon steel with Magni 565 coating
Durability	High mechanical strength
Corrosion resistance	Only galvanised and coated versions
Coating	Hot-dip galvanised (Silver) Powder coated (Black, Brown) Raw
Color	 Silver  Black  Brown  Natural

Square connectors

Material	Cast iron
Certificates	TÜV certified
Available sizes	25x25 mm 40x40 mm
Versatility	Compatible with steel and aluminium pipes
Assembly	Allen key (no welding or threading)
Set screws	ML08AL carbon steel with Magni 565 coating
Durability	High mechanical strength
Corrosion resistance	Only galvanised and coated versions
Coating	Hot-dip galvanised (Silver) Powder coated (Black)
Color	<input type="radio"/> Silver <input type="radio"/> Black

Pipes and Construction Profiles

Pipes and Construction Profiles Our pipes and profiles guarantee the stability of any structure. We offer heavy-duty hot-dip galvanised steel, lightweight aluminium, and stylish variants in Black and Vintage-Brown. Thanks to corrosion and UV resistance, the system is perfect for both indoor and outdoor use—from industrial barriers to loft-style furniture.

We provide a wide selection of diameters (21.3–60.3 mm) and square profiles (25 and 40 mm). We offer precise cutting to size: up to 400 cm for galvanised and aluminium pipes, and up to 300 cm for black and brown variants. Our products are fully compatible with KLEMP® connectors, allowing for lightning-fast assembly without welding.

Material	Steel and Aluminium
Available shapes	Round, Square, Rectangular
Coating	Hot-dip galvanised (Silver) Powder coated (Black, Brown) Raw
Cutting to size	Available in several sizes
Round pipes (")	½ ¾ 1 1¼ 1½ 2
Square profiles	25x25 mm 40x40 mm
Color	 Silver  Black  Brown

Application and Support

Our system is a standard in many industries. Where does it perform best?

- ✔ **Health & Safety and Industrial Security:** Safety railings, technical handrails, and protective balustrades on stairs, mezzanines, and walkways.
- ✔ **Health & Safety and Industrial Security:** Construction of heavy-duty storage racks, support structures, and high-bay storage systems.
- ✔ **Events and Exhibitions:** Structures for large-format billboards, professional stage constructions, lighting trusses, and frames for exhibition stands.
- ✔ **Architecture and Commercial Design:** Durable furnishing elements for offices, restaurants, and public spaces.

Need a 3D model?

We have a database of our connectors in CAD/CAM formats. You can easily download 3D models to create a visualization of your project.
